## MEMORIAL CANDLES

The SmartLite Candles are designed with the latest microchip technology and are very simple to use.

1. Deposit funds into payment box
2. Press the top of the candle cover and the candle lights

The VOTIVE mode is the normal function of lighting a candle for a specified time while the MEMORIAL mode allows a candle to be lit for an elongated time period. The MEMORIAL candle can be offered in memory of a deceased loved one or simply dedicated on behalf of a family or as a special thanksgiving. A memorial label is placed on the candle cover to indicate the purpose.

Parishioners can purchase a MEMORIAL candle on a monthly or an annual basis that will burn for either the month or the year.
